## PRODUCT-BASED COURSES

## GRADING

- **Milestone 1 (20%)** - Was the student able to manufacture the company's product and demonstrate the operation of Tier 1 features of the product?
- **Milestone 2 (20%)** - Was the student able to manufacture the company's product and demonstrate the operation of Tier 2 features of the product?
- **Product Research and Publication (20%)** - The Student is assigned a research topic on the company's product and is expected to prepare a publication based on the results obtained.
- **Product Demonstration and Presentation (20%)** - The student will give a Final PowerPoint Presentation on their designed company product, and physically demonstrate the working of the product to the Professor.

  **A statement from the President, Past-President, and President-Elect of IEEE:**  
IEEE is, and remains, strongly committed to diversity, equity, and inclusion and we see no place for hatred and discrimination in our communities.

Congratulations to Paolo Dario, Recipient of the 2024 IEEE Robotics and Automation Technical Field Award

### Technical Activities Board

The Technical Activities Board (TAB) focuses on the research content of the IEEE Robotics and Automation Society, tracking technical developments and encouraging innovation in: applications, theory, models, metrics, experiments, architectures, products, initiatives, and other technical areas. The TAB oversees the Technical Committees and the Distinguished Lecturer programs. The TAB is chaired by the Vice President for Technical Activities. Members of the TAB include all current Technical Committee Co-Chairs, and five members appointed by the RAS President.
